

GREEN POWER APPLICATION Kit Carson Customers Act Now!

Participate in KCEC's Green Power Program The more blocks you purchase the more pollution you prevent. \$.40 per month is a small price to pay to save 1,200 pounds of coal and avoid 2,400 pounds of air pollution a year (the equivalent environmental benefit of not driving your car 2,400 miles or planting one-half acre of trees).

Yes, I want to purchase pollution-free wind generated electricity. I understand that for each 100 kilowatt-hour block of wind power purchased, \$.40 cents will be filled in addition to my regular energy charge on my monthly Kit Carson Electric statement.
